**FOR EXTERNAL USE ONLY**

Rapidly absorbed emulsion, which leaves skin pleasantly soft and silky. Macadamia and Jojoba oils and Coconut butter soften and nourish the epidermis whilst the other active ingredients (Asiaticosides from Centella Asiatica, Equisetum and Tetrapeptide-21) actively stimulate the endogenous production of both Collagen and Hyaluronic Acid, leaving skin toned and plumped. The cosmetic action is rounded off by antioxidising agents (Vitamin E, Vitamin C, Ectoin, Silybin from Milk Thistle and Pomegranate) which stop skin ageing caused by free radicals and other external agents. Tetrapeptide-27 also gives the product skin lightening properties against dark spots, which are common on mature skin.

**DIRECTIONS:** Apply to dry skin before going to bed. Massage with small circular movements until thoroughly absorbed. If necessary the product can be used after applying Extreme Restorative Anti-Ageing Serum (R5).
