Soft formula made with prized plant oils and butters (Karité, Cocoa, Coconut, Macadamia and Jojoba) with the addition of Sicilian Lemon Essential Oil. Intense moisturisation is provided by micro-encapsulated Hyaluronic Acid: the product penetrates the deepest layers of the epidermis, where it expands in volume binding to water molecules, bestowing instant lift and comfort to lips.

DIRECTIONS: Remove the top and press the button at the base of the container. The container has been designed to dispense the correct amount of product for a single application. The product is dispensed at the base of the metal sphere, so simply massage by rolling the ball over the lips and around the mouth area, concentrating on wrinkles. Make sure the product is thoroughly absorbed. To be applied at least three times a day.
